1. Chronology of facts and activities

2013-15 Activities carried out:

– WP 1

- All tasks in the WP have advanced at a good pace. Task 1 (Theoretical Framework and Guidelines), Task 2 (Measurement methods) and Task 3 (Capital measurement: net stocks and rates of return) have progressed as scheduled. Deliverables D1.1, D1.2, D1.3 and D1.6 have been produced.
- Other tasks have also progressed as expected, although the output were expected for the second reporting period.
- There is no deviation from work-plan up to the moment.

– WP 2

- The workpackage have progressed as planned in the DOW. Deliverables due have been produced (D2.1)
- February 19th, 2014. WP2 Leader distributes **the Data screening-WP2 document** to coordinate the data collection process.
- Partners send their **feedback to the document** with the deadline of March, 20th.
- April, 25th, 2014. The WP leader sends to all partners **the Excel data template** to be filled with the data of each country with the deadline of June 15th
- LUISS team has individually contacted all the partners to get some feedback and comments about the preliminary estimated figures of some intangible assets.
- Data gathering 2nd round. February-March 2015.
- Spintan DB. Second version. Released July 16th, 2015

1. Chronology of facts and activities

2013-15 Activities carried out: (cont.)

– WP3

- Work progressed as planned in the DOW. The only deliverable scheduled before Nov. 2015 (D3.4) has been produced and submitted.

– WP4

- Work progressed as planned in the DOW. No deliverables expected before Nov. 2015.
- Several documents have been produced within tasks 1.

– WP5

- October 17th, 2014. **SPINTAN – WP5 meeting**. London.
- Objective: to present and discuss the tasks proposed for WP 5 in GA, providing a more detailed framework of the research questions, their methodology and data. I also dealt with the relations with other WPs of the project, especially with WP 1 and WP 2.
- The discussion highlighted the existence of important synergies not only among tasks within WP 5 but also within the remaining WPs of the SPINTAN project. Thus, one of the main conclusions of the meeting was the need to strengthen these links, favoring the communication between research partners.
- The two deliverables due (D5.1 and D5.6) have been submitted.
